

CET Maharashtra February 27, 2005

We are very pleased to present you the detailed analysis of CET Maharashtra held on February 27, 2005 on various centres all over India. Like last year this year also the test comprised 200 questions, to be solved in a time span of 150 minutes. This year also there was no major change in the pattern of CET. As the previous year's CET, this year's CET was a jumbled test with no specific sections (although questions from different topics were grouped together) and more of Logical Reasoning questions. There was no negative marking in the test.

Bird's eye view :

Total Number of Questions	:	200
Total Time	:	150 minutes.
The Marking Scheme	:	No negative marking.
