Exclusive Analysis

BASIC STRATEGY TO FOLLOW

Overall level of difficulty of the paper can be rated as easy to moderate. Fifteen to Seventeen questions from LR, Fourteen/Fifteen questions from GK, Fifteen/Seventeen questions from QA, Seventeen/Eighteen questions from DI and DS and six to eight questions from EU should have to attempted first. Ideally a student who is good to select the questions to solve, could attempt 68 to 72 questions in the first hour itself.

Section I - Quantitative Aptitude (QA)

The questions on QA were from topics **Time Speed Distance, Work and Time, Pipes and cisterns, Percentages, Profit and Loss, Partnerships, Averages, and Mixtures and Alligations, Trigonometry, Geometry, mensuration, Probability and Permutation & Combination.** The questions were of easy to moderate level of difficulty. For a well prepared student on an average **not more than 1.5-2 minutes** would be required to solve one question of this area. The details of the QA questions are as follows –

Topic	Questions	Difficulty Level
Time and distance	4	Easy to moderate
Trigonometry	3	Moderate
Mensuration & Geometry	6	Easy to moderate
Work and time, pipes and cistern	5	Easy to moderate
Percentage, ratio & proportion	4	Easy
Profit and loss	3	Easy to moderate
Partnership & Average	5	Moderate
Mixture & Alligations	3	Moderate
Probability and P & C	7	Easy to moderate

Section II - Logical and Critical Reasoning (CR)

To check the students' logical and analytical abilities there were questions on **Relations, Linear arrangements, Coding-Decoding, Number and Alphabet Series, Venn Diagram, Assumptions-Statements, Assertion-Reason and Statement-Course of action Etc.** In grid puzzle one missing number were to find Statement-course of action and Assertion-Reason all other questions were easy. One could attempt 24-28 questions in a time span of 35 to 40 minutes from this area. The details of the LR questions are as follows –

Topic	Questions	Difficulty Level
Statement-Course of action	4	moderate
Direction Sense	2	Easy
Data arrangement	4	Easy
Coding-decoding	5	Easy
Number & alphabet series	5	Easy to moderate
Venn diagram	6	Easy
Assertion & reason	4	Moderate
Critical Reasoning	6	Tough
Linear arrangement	4	Easy

Section III - Reading Comprehension and English Usage (RC and EU)

There were total **five RC** passages. Total **20 questions** were asked on these passages. The themes of the RC passages were on **(1) Article on Human Genome Project from Nature Magazine - 450 words (2) Performance of Telecommunication companies like BSNL, MTNL etc. - 400 words (3) Thirteenth Finance Commission and GDP - 350 words (4) Describing the life of people living in England - 200 words (5) An autobiography - 200 words.** The questions asked were direct and easy.

Section IV - Data Analysis and Sufficiency

There were 30 questions from Data Interpretation, 5 questions on Data Sufficiency (Four options direct), and 5 questions on Data Comparison. Questions were easy. **This time there was a new variety of Data Interpretation with a triangular bar diagram was there.** The details of the DI questions are as follows –

Type	Questions	Difficulty Level

Caselet	5	Moderate
Two pie charts	$4 \times 2 = 8$	Moderate
Bar graph + line graph	4	Moderate
Multiple Bar graph	4	Moderate

Section V - General Knowledge

The GK questions were a mixture of easy and moderate level of difficulty. The questions were on dynamic as well as traditional GK. There were questions on **Economics, Current Affairs, Awards and Prizes, Business and Sports**. Since this area was only to pass and the marks of this will not be include in merit, **an attempt of 18-20 questions will be sufficient to achieve the cut-off for this area.**

Overall an score of 100+ (out of 160 i.e. excluding GK) should be good to getting AMITY, BIM Tech., Christ and some other top B- Schools.

At the end, as Zig Ziglar said **"It is your attitude, not your aptitude, that determines your altitude."** So keep your attitude right and well prepared for the tests ahead.

Best wishes!
